

LG Sunrise Back cover Replacement

Replacing the thin plastic back cover of your LG Sunrise.

Written By: Ja'Kolby Azard-Stinnett

INTRODUCTION

You should replace the back cover when the plastic clips that attached the cover to the back of the phone breaks or if there is any cracks in the cover. This is what protects all of the inside components.

TOOLS:

- [iFixit Opening Tools](#) (1)
-

Step 1 — Back cover

- Flip the phone over so the back side is facing you.

Step 2

- Use a prying tool or a flat head screwdriver to pry the back cover from the device.

Step 3

- Set back panel aside for later use or to replace.

To reassemble your device, follow these instructions in reverse order.
