

BLU WIN HD LTE Frame Cover Replacement

Removing the frame cover to get access to the battery of your BLU WIN HD LTE.

Written By: Tione Gooden

INTRODUCTION

The frame cover protects the battery and the inside components of the device.

TOOLS:

- [JIS #00 Screwdriver](#) (1)
 - [Spudger](#) (1)
-

Step 1 — Back Case

- Pry the back cover from the bottom of the phone, pulling outwards and upwards.

Step 2

- Fully remove the cover and set aside in a safe place.

Step 3 — Frame Cover

- Remove all the nine 2mm screws using the JIS #00 Screwdriver.

Step 4

- Pry the frame off using the spudger pulling upwards going to different areas around the device.
- ⓘ The back cover is secured by glue. Removal could be more difficult than expected.

To reassemble your device, follow these instructions in reverse order. Ensure that all sides of the frame cover are firmly snapped on before replacing the screws.
