

# MSI GP60 2PE Leopard Fan Replacement

This guide will help you replace your fan with a new one.

Written By: Zoey Calcagno

---

## INTRODUCTION

Looking to replace your fan? This guide will help you do so with only a couple steps.

---

### TOOLS:

- [Phillips #00 Screwdriver](#) (1)
-

## Step 1 — Back Panel

- Flip the device over so the back is facing up.

## Step 2

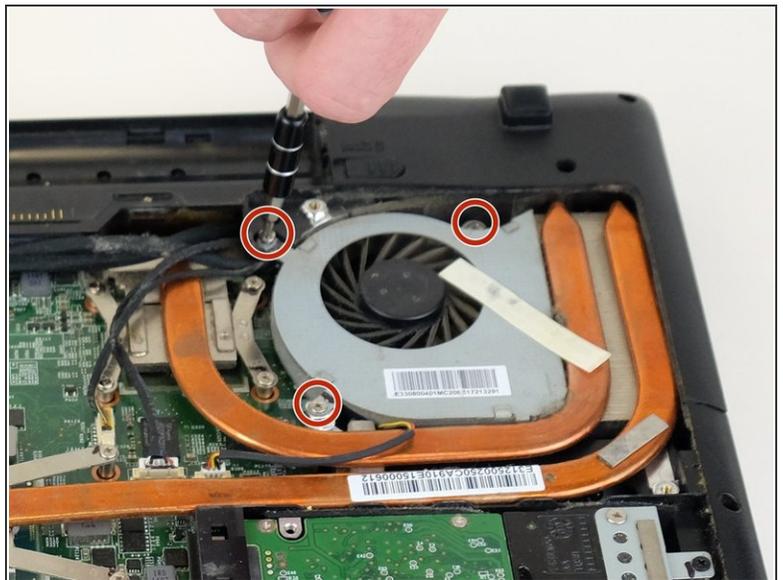

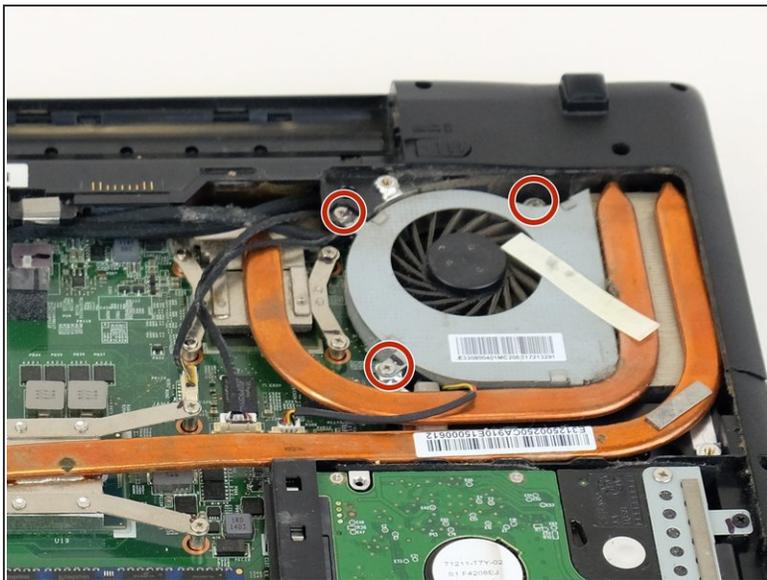

- Remove the four 5mm screws from the back of the device using a Phillips #00 screwdriver.
- ⓘ There is a screw located under the battery; lift the battery up to access it.

### Step 3

- Once all four screws are removed, lift the back off.

### Step 4 — Fan

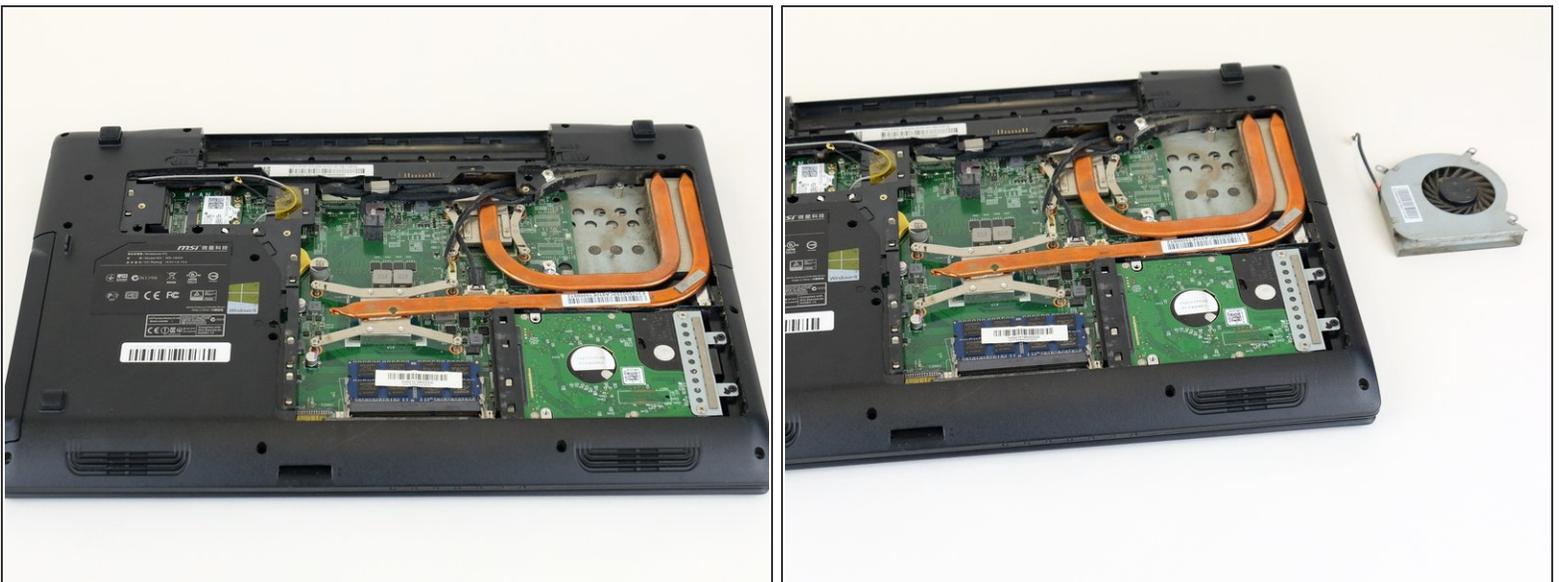

- Remove the three 5 mm screws from the fan with a Phillips #00 screwdriver.

## Step 5

- Pull the wire on the bottom left of the fan out of the socket.
- ⓘ Pull the wire gently; pulling too hard could damage the wire.

## Step 6

- Remove the fan.

To reassemble your device, follow these instructions in reverse order.
