Step 1 — Front Cage

- Unplug your fan.

- Remove the 20 mm bolt that fastens the fan ring located at the bottom of the fan cage with a Phillips #3 screwdriver.

Step 2

- Remove the ring that runs around the edge of the fan cage.

Step 5

⚠ Take caution when removing the fan blades. They can be sharp!

● Slide the fan blade off the end of the rotor.

Step 6 — Back Cage

● Unscrew the four 8 mm bolts that fasten the back of the fan cage back to the motor housing with a Phillips #3 screwdriver.

Step 7

● Pull the back cage off.

To reassemble your device, follow these instructions in reverse order.
