

Mounting Plate Replacement

This guide will show you how to replace the mounting plate on the Ring Spotlight Cam Battery.

Written By: Damaris Aguirre

INTRODUCTION

If you have trouble with your mount plate or want to replace it, this guide will give you detailed steps to follow in order to successfully replace your mounting plate. This replacement should take approximately 5-10 minutes to complete.

TOOLS:

- [Phillips #00 Screwdriver](#) (1)
-

Step 1 — Mounting Plate

- Hold Ring Spotlight Cam and hold it backward to you.

Step 2

- Remove the screw using the screwdriver and head tool PH00.

Step 3

- Open the top lid.

Step 4

- Press the mounting plate button and slide upwards.

To reassemble your device, follow these instructions in reverse order.
