

Lenovo IdeaPad 100s-14IBR Speaker Replacement

This guide will help the users fix issues with the speakers found in the Lenovo IdeaPad 100S-141BR.

Written By: Bin Feng

INTRODUCTION

This guide will help the users fix issues with the speakers found in the Lenovo IdeaPad 100S-141BR.

TOOLS:

- [Phillips #00 Screwdriver](#) (1)
 - [Spudger](#) (1)
-

Step 1 — Speaker

- Remove the eight 4mm PH00 screws.
- Remove the four 2mm PH00 screws.

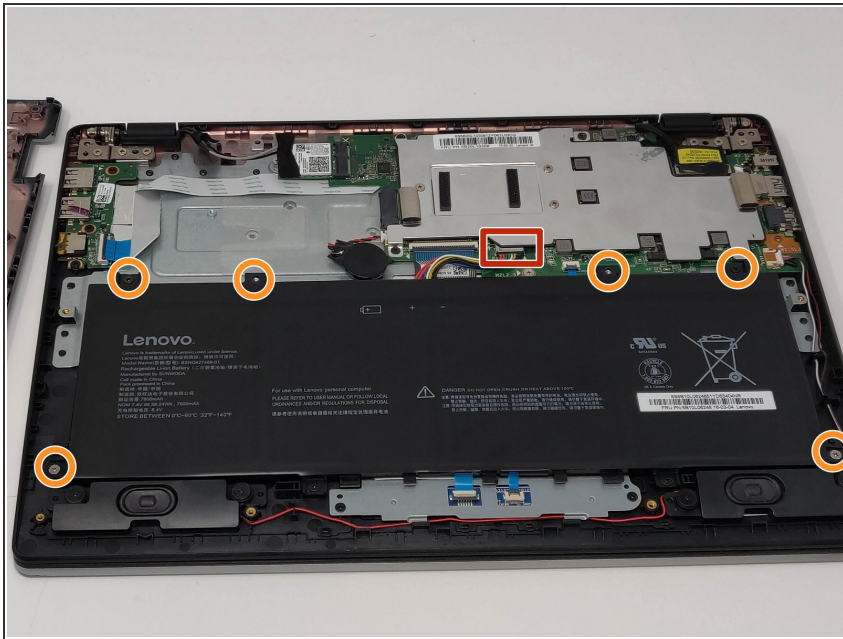

Step 2

- Use the nylon spudger to loosen the back cover from the back of the device.

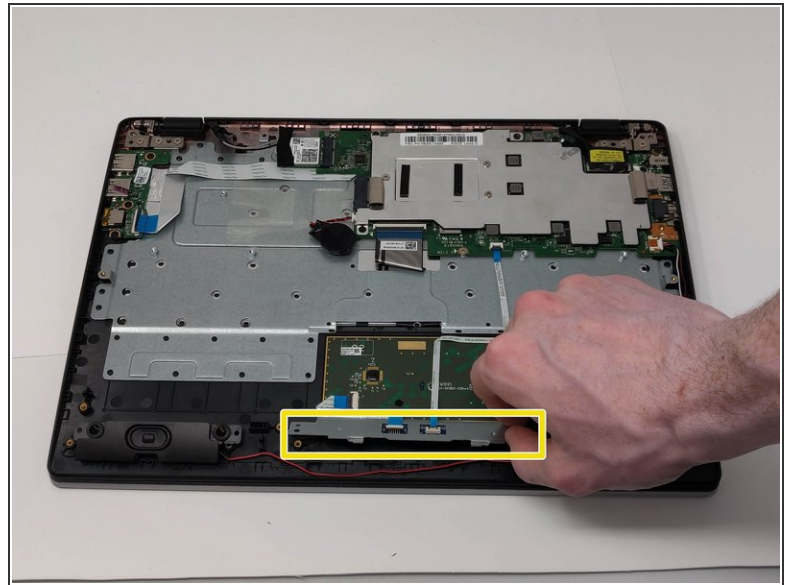

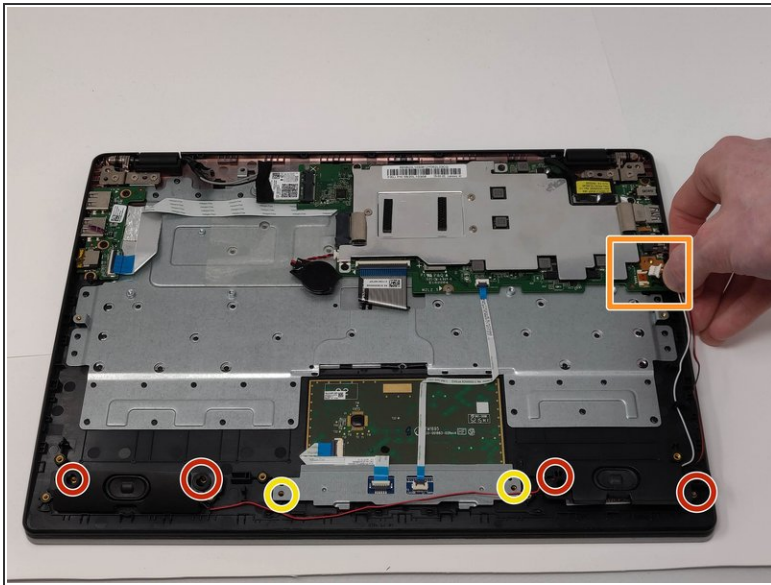

⚠ You may hear a bit of a snapping sound, but this is normal.

Step 3

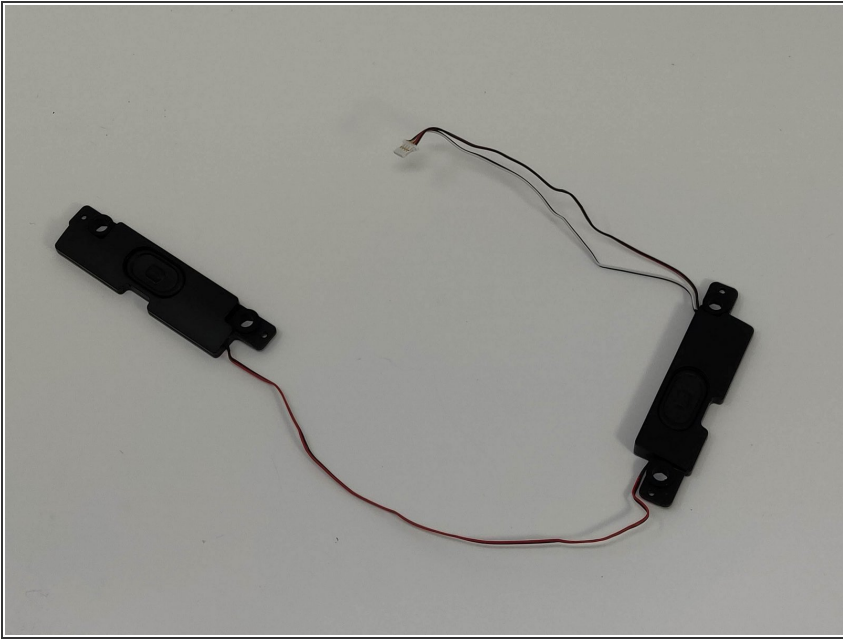

- For safety reasons, disconnect the wires connecting the battery to the motherboard with the nylon spudger.
- Remove the six 4mm Phillips #00 screws.
- Remove the battery using the nylon spudger.

Step 4

- Remove the four 2mm PH00 screws.
- Unplug the speakers from the motherboard.
- Remove the two 4mm PH00 screws from the metal shield on the trackpad.
- Lift the metal shield up slightly, being very careful not to move the ribbon cables too much. Move the speaker cables out from under the shield.

Step 5

- Lift the speakers from the case being careful of the wires connecting them. Put them to the side.

To reassemble your device, follow these instructions in reverse order.
