

HTC Trophy Battery Replacement

Use this guide to replace the battery in your HTC Trophy.

Written By: Victoria Schmidt

INTRODUCTION

Use this guide to replace the HTC Trophy battery.

The battery holds the power for the device so that it may be used for extended periods of time.

Indications that a new battery may be needed:

- The device will not turn on
- The device will not hold a charge

After going through the replacement guide please be careful to not puncture the battery before disposing of it properly.

TOOLS:

- [iFixit Opening Tools](#) (1)
-

Step 1 — Battery

- Power off the phone before starting.
- Remove the back panel by inserting the iFixIt opening tool into gap at the top of the rear and prying upward.

Step 2

- Remove the battery by inserting the iFixIt opening tool into the small gap between the battery and the surrounding plastic.
- Apply a small force towards the bottom of the phone and lift upwards.

 Be careful not to puncture the battery.

To reassemble your device, follow these instructions in reverse order.

Be sure to dispose of the old batter properly by finding [Where to Donate/Dispose of Old Batteries.](#)
