## Step 1 — Power off the device

- Press and hold the power button and swipe down to power off the device.

## Step 2 — Remove the back cover

- Remove the back cover by prying up from the bottom.
  - ⓘ The back plastic is fairly bendable, but take care not to bend it too much while pulling it off the back.

## Step 3 — Remove the battery

- With the back of the phone removed, lift the battery from the top and remove it.

  ⚠️ Always be careful with batteries, even if they seem protected. Store it in a safe place, or dispose of the old one properly.

- You can now replace the battery.

To reassemble your device, follow these instructions in reverse order.
