## Step 1 — Slide battery latch

- Slide battery latch to left

- Simultaneously lift battery

## Step 2

- Lift and remove battery

www.iFixit.com
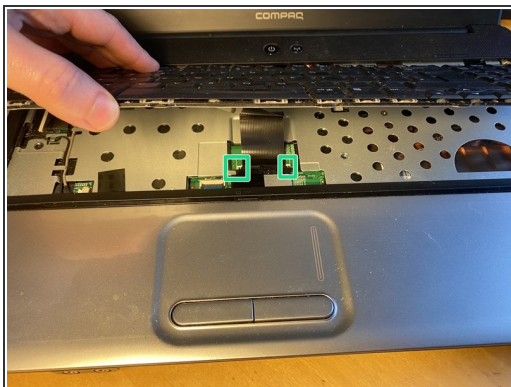

## Step 3 — Unscrew keyboard

- Remove 3x M2.5x4mm

## Step 4 — Lift keyboard

- Lift the keyboard in the middle with a spudger

- Remove 4 clips by bending keyboard in middle, do not force the clips at the sides

- Do not remove the keyboard fully, it is attached via a ribbon cable

This document was generated on 2021-05-31 05:16:39 PM (MST).
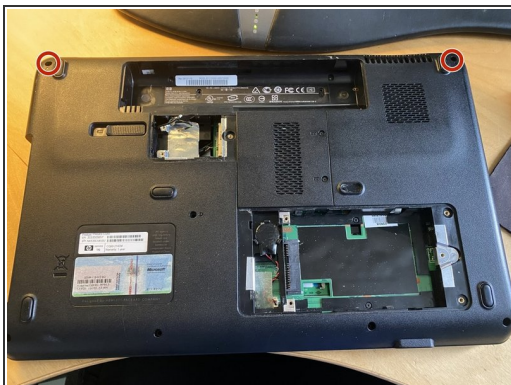

## Step 5 — Detach ribbon cable

- Lift keyboard slightly

- Push each side of ribbon cable connector

- Fully remove keyboard

## Step 6 — Remove screws

- Remove 2x Phillips M2.5x8mm screws from under the display

- Remove 4x Phillips M2x2.8mm screws from the battery compartment
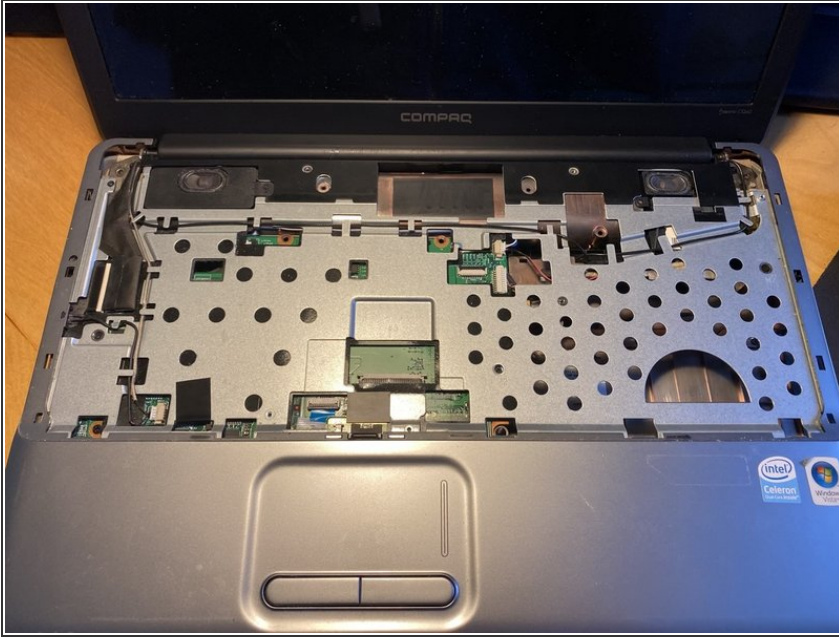

## Step 7 — Disconnect ribbon cable

- Turn over the laptop

- Use a spudger to lift the ribbon cable hinged clip

- Pull the ribbon cable out of the connector

## Step 8

- Lifting the bezel by the screen

- Slide the bezel back towards the screen to release it from the clips

This document was generated on 2021-05-31 05:16:39 PM (MST).

## Step 9 — Remove bezel

- Fully remove bezel

---

To reassemble your device, follow these instructions in reverse order.
