

# Lenovo Y520-15IKBN Display Replacement

Written By: Mark A Clement

---

 **TOOLS:**

Spudger (1)  
Phillips #00 Screwdriver (1)  
Phillips #1 Screwdriver (1)  
Phillips #0 Screwdriver (1)  
iFixit Opening Tool (1)

 **PARTS:**

Lenovo Legion Y520 & IdeaPad 700  
Battery (1)  
Lenovo Legion Y520-15 Lower Case (1)  
Lenovo L13M4P02 Battery (1)

---

## Step 1 — Battery

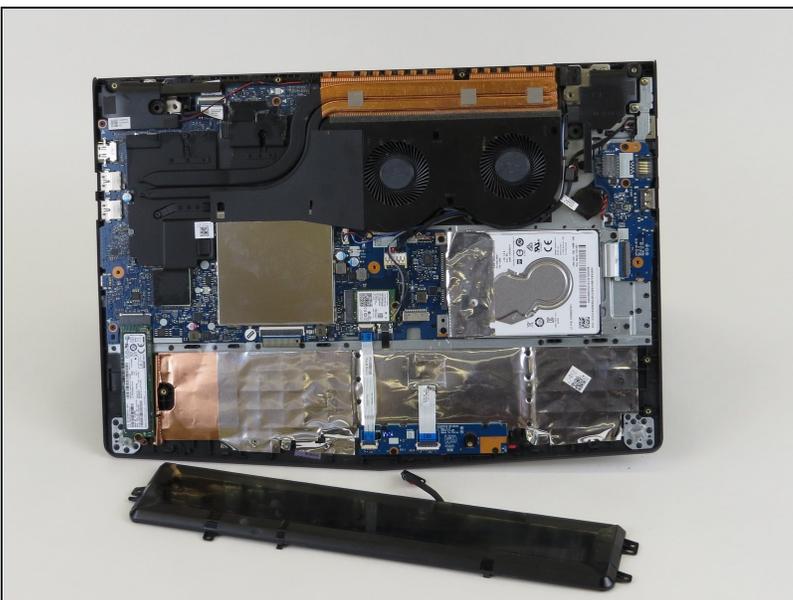

- Remove the four 4 mm Phillips #00 screws securing the battery.

## Step 2

- Disconnect the battery connector by pulling the battery cable directly out of its port, toward the battery.  
**⚠ Do not pull on the socket itself or you risk damaging the motherboard.**
- ⓘ If necessary, apply force and slowly wiggle the connector out of its socket. It should work its way out slowly.

## Step 3

- Lift the battery up and out of the chassis.

## Step 4 — Display

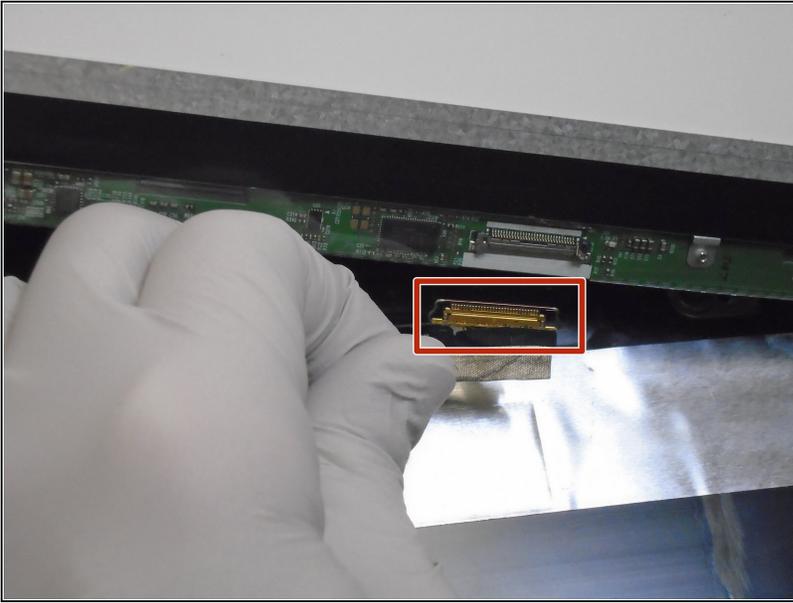

- Use an opening tool to pry off the display bezel.

## Step 5

- Remove the four 4 mm screws with a Phillips #1 screwdriver.

## Step 6

- Flip up the gate on the display ribbon cable, and pull it directly out of its port.
- Remove the display from the computer.
