

# iDog Clip Back Cover Removal

This guide will help you take off the back "cover" of the iDog Clip.

Written By: 118811

## INTRODUCTION

You will need: a regular Philips head screwdriver that's it!

## Step 1 — iDog Clip Back Cover Removal

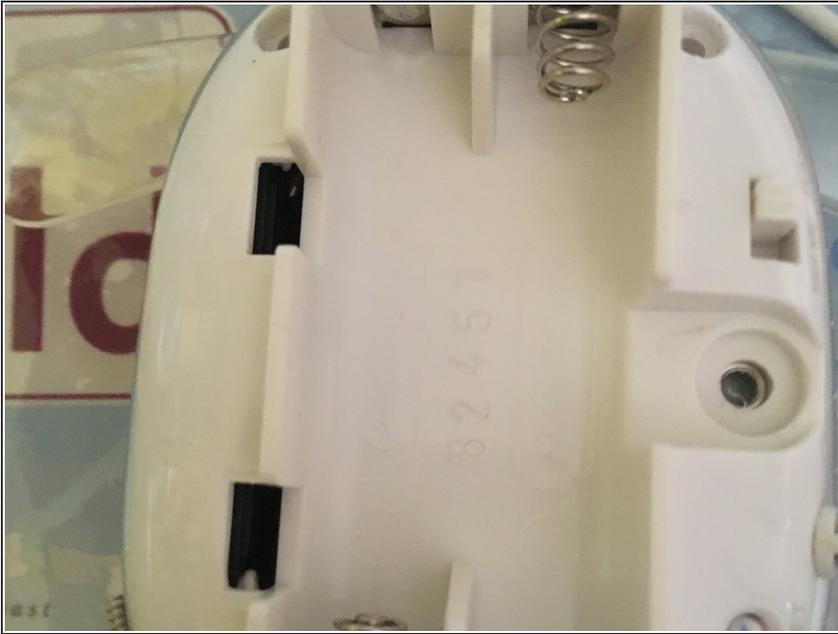

- Make sure it is off by holding its nose for about 4 seconds. If it is already off it will turn on.

## Step 2

- Unscrew the battery cover screw.

### Step 3

- Remove batteries.

### Step 4

- Remove all screws (they are the same size).

## Step 5

 Gently pull up (watch video).

## Step 6

 And you are done! To put it back on make sure you start with AUX out!!!

To reassemble your device, follow these instructions in reverse order.
