

Repairing Garmin Forerunner 405 Contacts

Use this repair guide to repair and clean the contacts on a Garmin Forerunner 405.

Written By: Kyle Kiwczak

INTRODUCTION

This guide will walk you through the process of cleaning the contacts on a Garmin Forerunner 405.

TOOLS:

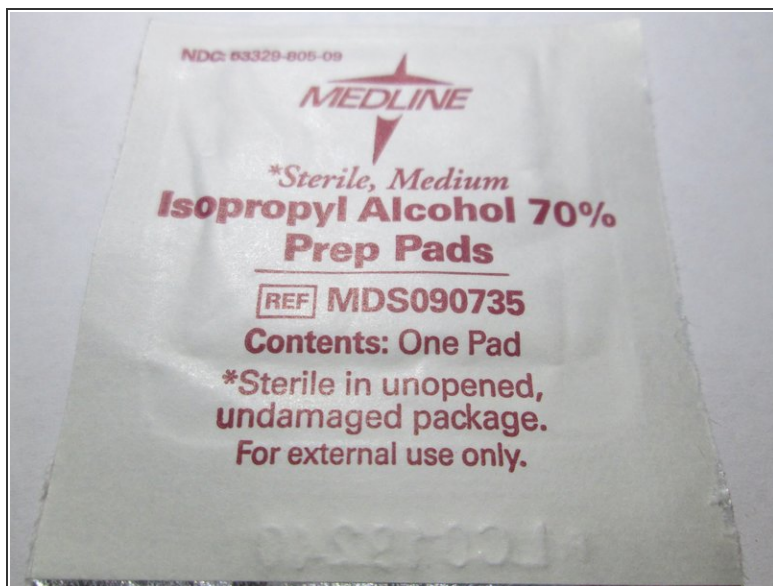

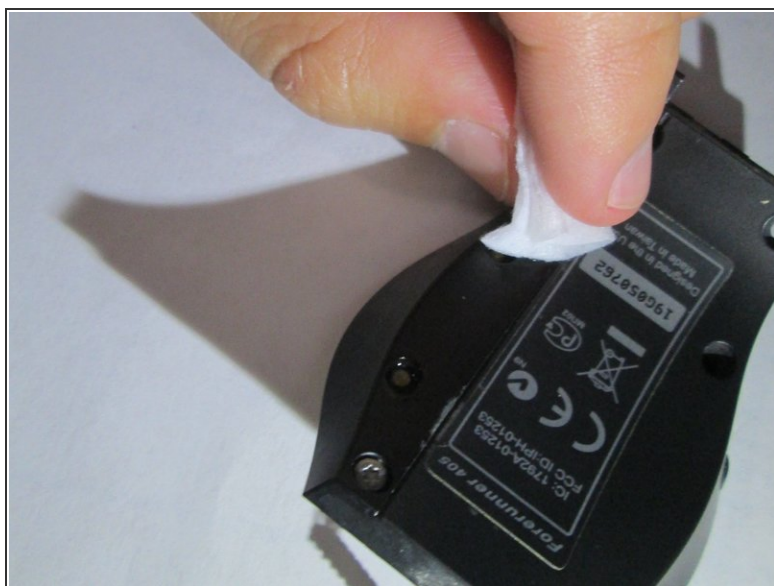

- [Detailing Brush](#) (1)
 - [Isopropyl Alcohol Wipes](#) (1)
-

Step 1 — Locate

- Locate corroded contacts on the back side of the watch.

Step 2 — Wipe

- Wipe both contacts with force using an isopropyl alcohol wipe.

Step 3 — Clean

- Use a rough brush to scrape the contacts clean.

To reassemble your device, follow these instructions in reverse order.
