INTRODUCTION

Removing the battery is the first step in any electronic device repair in order to ensure your safety and protect the device from any damage.

Step 1 — Battery

- The battery is located on the left side of the laptop, as shown by the red circle.
- Make sure the laptop is disconnected and turned completely off.

Step 2

- ⓘ Remove the battery by following these steps.
- Pull the plastic cover down (indicated by the arrow on the cover) and then swing it upwards to reveal the battery compartment.
 - The battery can now be removed by pulling it.

To reassemble your device, follow these instructions in reverse order.
