

Blu Studio 5.5 S Battery Replacement

This guide will assist you in removing the battery from the Blu Studio 5.5 S smart phone in a few simple steps.

Written By: Cody Dyl

INTRODUCTION

Battery removal is useful because it allows you to either replace the battery or reset the phone.

Step 1 — Back Casing

- In order to remove the back case, start by flipping the phone to the back side and look at it from the top.

Step 2 — Applying Pressure

- Place your finger in the small notch on the left side of the charging port (facing from the back).
- Once your finger is in the notch, pull the back case towards yourself to remove it.

Step 3 — Battery

- Once the back case is removed, locate the battery. It is the large brick embedded in the phone. It has BLU Products, a caution statement, and a barcode on it.
- Insert your finger into the notch near the lower left of the battery, apply pressure and lift up.

To reassemble your device, follow these instructions in reverse order.
