

# Alcatel One Touch Fierce Rear Facing Camera Replacement

Use this guide to replace the rear facing...

Written By: Cody Stouffer

# INTRODUCTION

Use this guide to replace the rear facing camera on your Alcatel One Touch Fierce.

## TOOLS:

[iFixit Opening Tool](#) (1)

[Phillips #000 Screwdriver](#) (1)

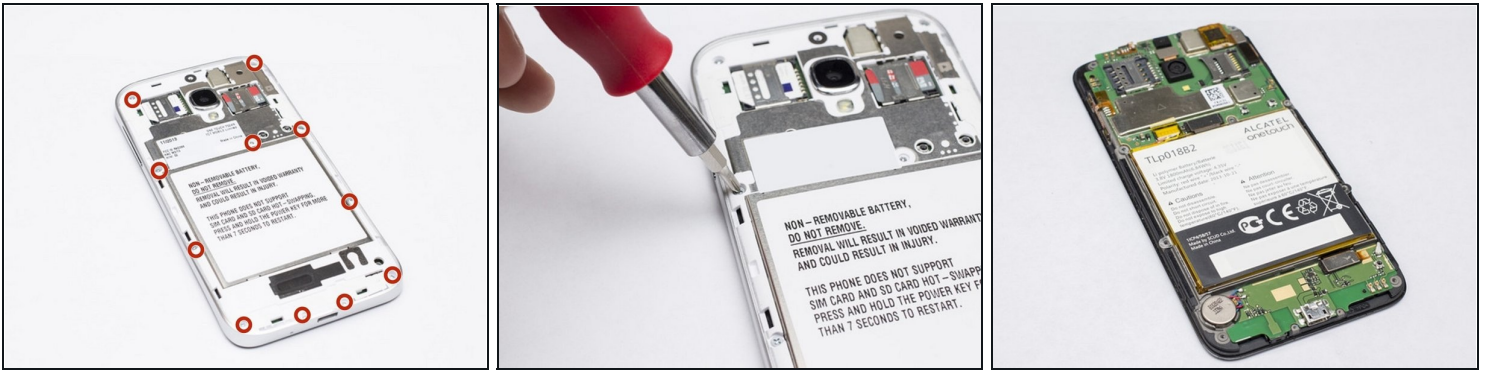

[Tweezers](#) (1)

## Step 1 — Rear Case

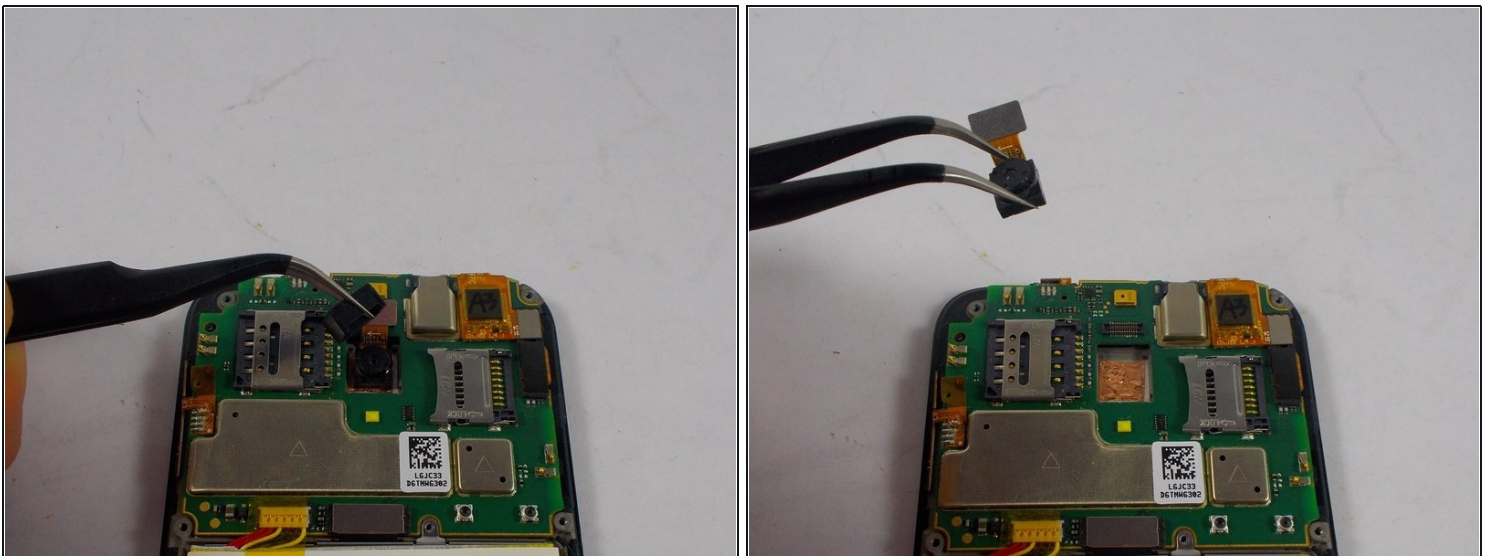

- Pry with a plastic opening tool, or your fingernail, in the divot at the bottom left corner of the phone.
- Lift the rear case by the corner nearest the divot and remove it from the phone.

## Step 2 — Midframe

- Remove the 11 Phillips #000 screws.
- The midframe should lift free.

## Step 3 — Rear Facing Camera

- Use a pair of [tweezers](#) to gently disconnect the camera connector and remove the rear facing camera.

---

To reassemble your device, follow these instructions in reverse order.
