🔧 TOOLS:

- Phillips #00 Screwdriver (1)

Step 1 — Back Cover
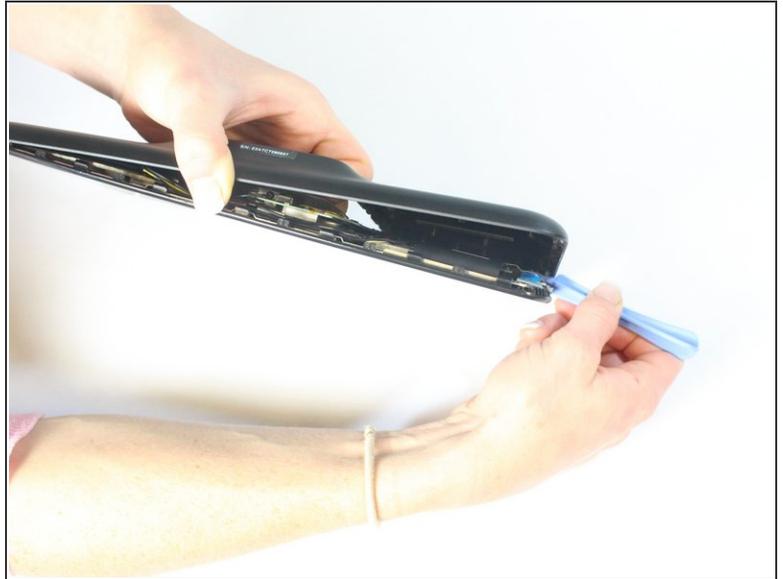

- Using the plastic opening tools, insert it into the edge and pry open.

- Use hands to help pull the back off from the front if needed.

Step 2 — Check USB Charging Port for water damage
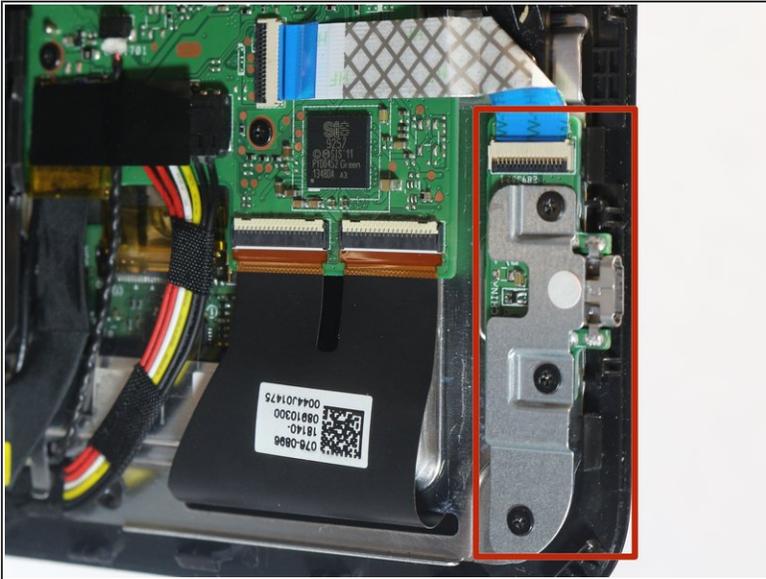

- Locate CON2002
  - Check water indicator on USB Charging Port

ⓘ A white indicator means there is no water damage. A red indicator means there was water damage.

Step 3 — Removing Charging Port
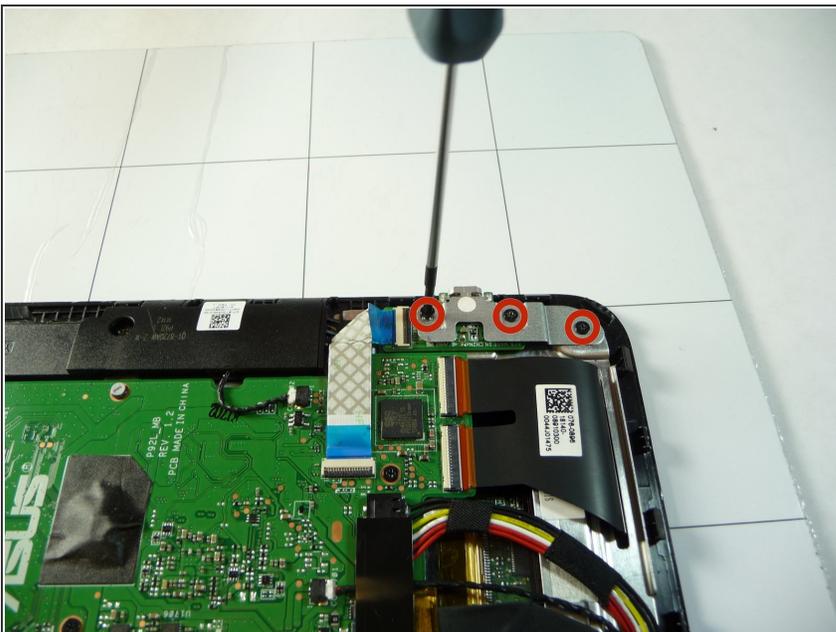

- Locate and remove three Phillips screws
