

Turtle Beach Ear Force XO One Speaker Replacement

This guide shows how to remove and the speaker and the step you need to take to replace the part.

Written By: Stephen Reilly

INTRODUCTION

If you're experiencing poor sound quality, you might need or want to replace your speaker. This guide shows the steps necessary to replace the speaker.

TOOLS:

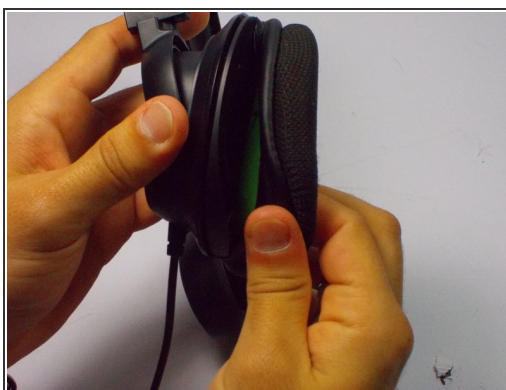

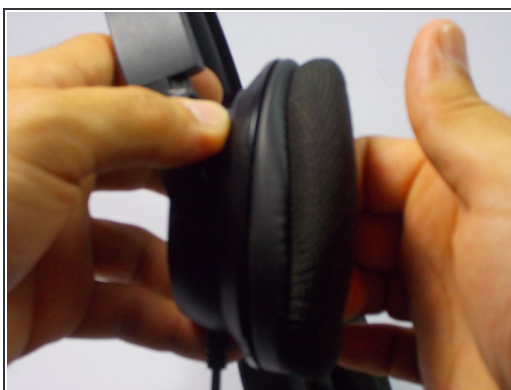

- [Phillips #0 Screwdriver](#) (1)
-

Step 1 — Speaker

- Start with the ear padding facing up.

Step 2

- Remove the ear padding by separating the fabric piece from the plastic headphone piece.
- The leather padding will slide off the plastic piece holding it in place. Don't be afraid to pull with a little force.

Step 3

- Use a Philips head screwdriver to remove the speaker cover.
- Be careful the speaker is attached to the chip inside by wires.
- The recommended screwdriver bit size is a PH 0.

Step 4

- Once the speaker cover is removed, the wires can be cut or de-soldered.
- Remove the speaker.
- Insert the new speaker

To reassemble your device, follow these instructions in reverse order.
