INTRODUCTION

If your LG Optimus Exceed 2 will not hold a battery charge for very long or simply will not charge when you plug it in to a charger, then you may be looking to replace your battery. Follow these steps below on how to do so.

Step 1 — Battery

- Flip the device over and remove the back covering.

Step 2

- Push on the top of the battery downward and pull the battery off of the device.

To reassemble your device, follow these instructions in reverse order.
