iHome iP1 Buttons Replacement

Replace the dock command buttons on your iHome iP1.

Written By: Wen Sullivan

INTRODUCTION

Use this guide to replace your iHome iP1's damaged or faulty command buttons. These buttons are located on the front of the iPod/iPhone dock and are used pause/play music and change the volume of the speakers.

TOOLS:

- Phillips #1 Screwdriver (1)

Step 3

- Remove the dock cover by grabbing its sides and pulling it up and away from the faceplate.

Step 4 — Buttons

- Disconnect the silver ribbon cable on the left-hand side by pulling away from the command buttons.

Step 5

- Remove the command buttons by pulling the small black panel containing them downward and away from the faceplate.

To reassemble your device, follow these instructions in reverse order.
