# INTRODUCTION

In this guide, you will be shown step-by-step how to replace your Le Pan II charging port.

---

## TOOLS:

- [Metal Spudger](#) (1)
- [iFixit Opening Tools](#) (1)

*Optional*

- [Phillips #00 Screwdriver](#) (1)
-

## Step 1 — Screen

- Insert metal spudger between front and back panel to pry apart.
- Continue to pry while moving the metal spudger along the crevice to completely separate two panels.

 Avoid using metal when opening devices, as it can damage or crack the screen.

## Step 2

- Use the plastic opening tool to disconnect the flat ribbon cable from the motherboard connector.
- Disconnect the flat ribbon by gently pulling it out from its connecting port.

## Step 3

- Use the plastic opening tool to disconnect the display cable from its motherboard connector.
- Disconnect the display cable by gently pulling it out from its connecting port.

## Step 4

- Remove grey metal backing from screen.

## Step 5

- Flip the tablet so the screen is facing upward, and use the metal spudger to pry apart the screen from the side pieces.

## Step 6

- Lift and carefully remove the LCD display from the front cover.

## Step 7 — Charging Port

- Use the Phillips 00 screwdriver head to unscrew the screws to the motherboard.
- ★ Reminder: There should be 8 (3.5 mm) screws to the motherboard.

## Step 8

- Use the Phillips 00 screwdriver head to unscrew the screws to the fan.
- ★ Reminder: There should be 4 (1mm) screws to the fan.

## Step 9

- Use the metal spudger to pry off the charging port from the motherboard.

To reassemble your device, follow these instructions in reverse order.
