### TOOLS:

- [iFixit Opening Tools](#) (1)
  - [Phillips #0 Screwdriver](#) (1)
-

## Step 1 — Magellan Roadmate 9055-LM Back Panel Disassembly

 Flip your device with back panel facing up.

## Step 2

- Unscrew four Phillips #0 screws from the back panel.

### Step 3

- Unscrew two Phillips #0 screws from the back panel.

### Step 4

- Use a plastic opening tool to pop the right side of the panel.

## Step 5

 Lifting the back panel too quickly or forcefully may damage the speaker cable and battery cable, which are still attached underneath.

- Gently lift up the back panel.

## Step 6

- Remove the tape.
- Unplug the cable for the speaker.

## Step 7

- Remove the cable of the battery.
- ⓘ Tape removal is not necessary.

## Step 8

- Place the back panel gently on the table.

## Step 9 — Motherboard

- Unscrew four screws in the top left corner by using Phillips #0 size screwdriver.

## Step 10

- Remove all the electrical tapes from different places as indicated.

## Step 11

- Remove the white clip attached with black and white wires.
- ⚠ Carefully remove the clip by pulling it to the opposite side from the clip.

## Step 12

- Unplug the wires by pushing it down and slowly pulling it towards you.
- After unplugging the wires, take the motherboard out.

To reassemble your device, follow these instructions in reverse order.
