Razer Blackwidow Tournament Edition Keyboard USB Port Board Replacement

This guide explains how to replace the USB port...

Written By: Haleigh Teegarden

INTRODUCTION

This guide explains how to replace the USB port in the Razer Blackwidow Tournament Edition keyboard.
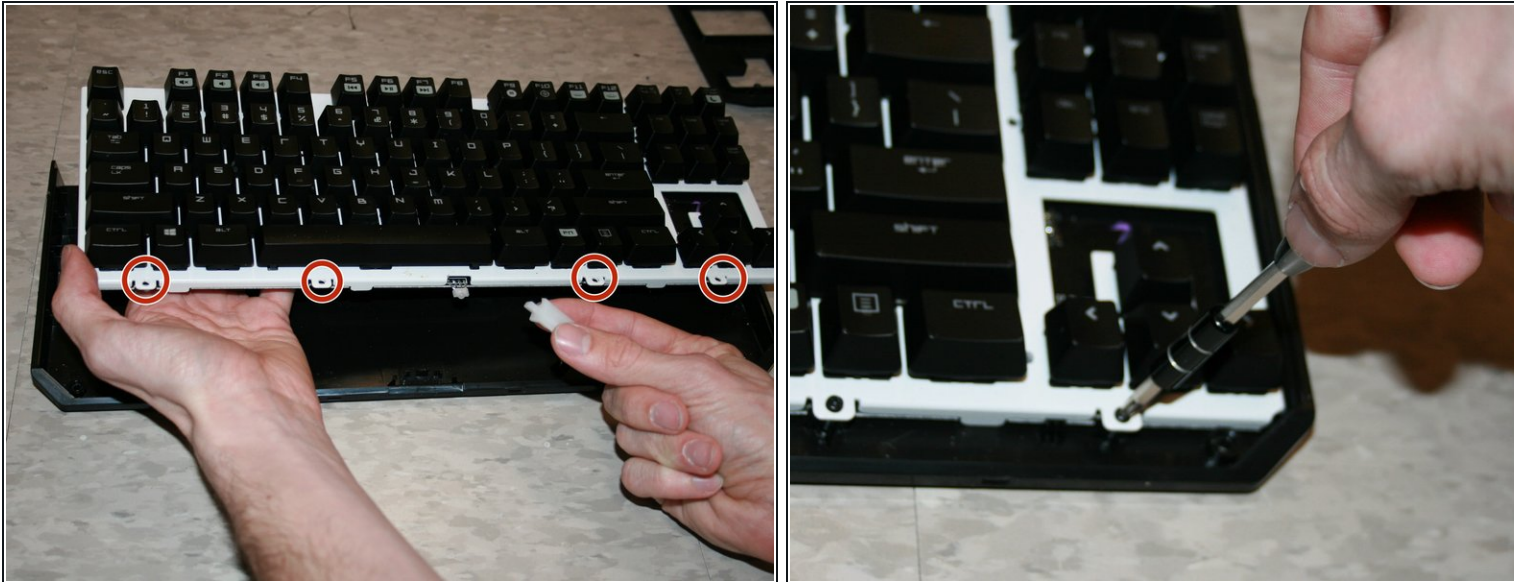

🔧 **TOOLS:**

Metal Spudger (1)
Mako Driver Kit - 64 Precision Bits (1)
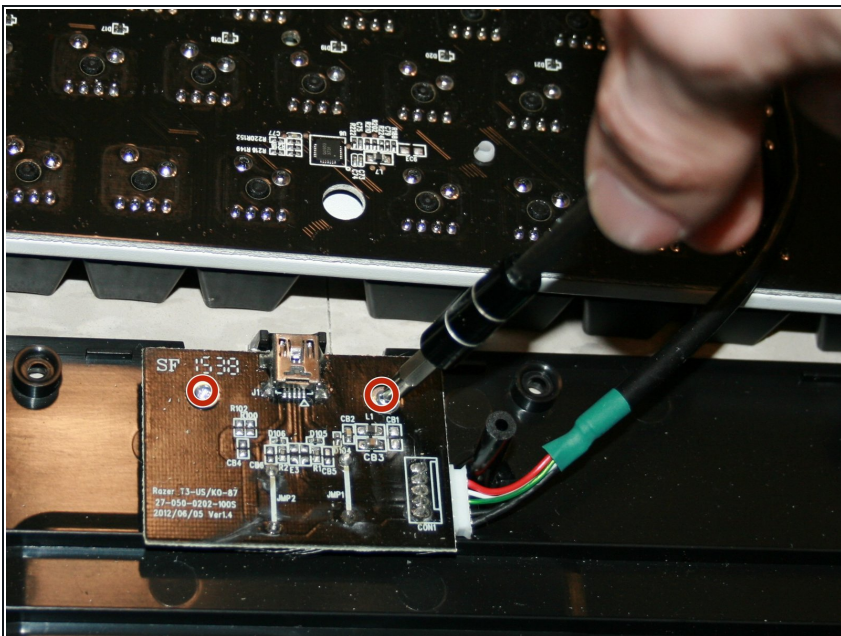

Step 1 — USB Port Board

- Remove the four plastic covers and rubber feet from all four corners of the keyboard.

- Remove the four screws.

- Carefully pry around the bottom end of the keyboard and work your way around keyboard to un-clip the face.
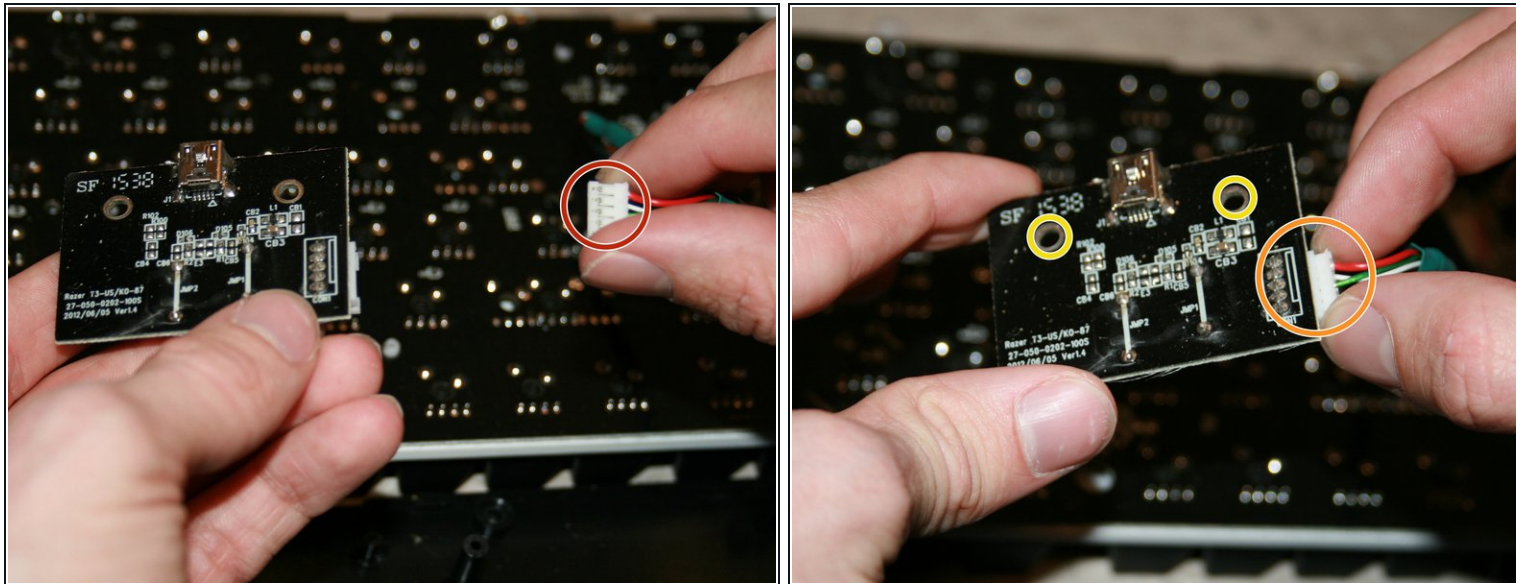

Step 2

- Turn the keyboard face up.
  - Remove the four screws which attach the keys.

(i) Note the orientation of the white plastic cover relative to the LED at the bottom of the board.

Step 3

- Locate the USB at the top of the device.
  - Remove the two screws attaching the USB.

Step 4

- Unplug the cable connecting to the USB board.

- Plug the new USB board into the slot.

- Replace the screws in the USB board.

To reassemble your device, follow these instructions in reverse order.
