

# Bose SoundTouch Portable Speaker Replacement

Replace speakers for your Bose SoundTouch Portable.

Written By: Chelsea Martin

---

## INTRODUCTION

This tutorial requires removal of the front grille and back cover to access the speakers.

---

### TOOLS:

- [T10 Torx Screwdriver](#) (1)
  - [iFixit Opening Tools](#) (1)
  - [Small Needle Nose Pliers](#) (1)
-

## Step 1 — Speaker Battery

- Remove the two T-10 machine screws at the bottom of the device.

## Step 2

- Turn the device around.
- From the top, lightly push down the back cover to release it.
- Lift the bottom of the cover and pull it up.

### Step 3

- Remove the two T-10 machine screws, then pull the battery straight out.

### Step 4 — Grille

- Remove the two screws holding the speaker grille in place.

## Step 5

- Grip the sides of the device and push the speaker grille down and out.

## Step 6

- Gently release the ribbon from its connector and remove the grille.

## Step 7 — Speakers

- There are four T-10 Torx screws for each speaker; remove all four screws for each speaker you are replacing.

## Step 8

- Using a plastic pry tool, carefully pry the speaker up.
- With the bottom of the speaker exposed, unwind the wires from the connection tabs and replace the speaker.

To reassemble your device, follow these instructions in reverse order.
