# Nexus S SIM Card Board Replacement

Written By: Walter Galan

INTRODUCTION

Internal prereq.

🔧 TOOLS:

- iFixit Opening Tools (1)

Step 1 — SIM Card Board

- Use the flat edge of a plastic opening tool to pry the SIM Board connector off its socket on the motherboard.

Step 2

- Wedge the edge of a plastic opening tool underneath the SIM Card board and motherboard.

- Pry the clips located near the right bottom edge of the SIM Card board up off the motherboard.

- Repeat the process all along the bottom perimeter of the SIM Card board until all clips have been disengaged.

Step 3

- Lift and remove the SIM Card board out of the Nexus S.

To reassemble your device, follow these instructions in reverse order.
