

Dell XPS 12 9Q23 Touch Pad Replacement

Written By: DJ Jackson

TOOLS:

T5 Torx Screwdriver (1)

Phillips #00 Screwdriver (1)

Step 1 — Battery

- Pop the center cover open on the bottom cover.
- Remove the center screw with a #00 Phillips screwdriver.
- Use a T5 Torx screwdriver for the remaining screws around the edge of the bottom cover.

Step 2

- Carefully remove back panel after all screws have been removed.

Step 3

- After the back panel has been removed, disconnect the battery to prevent electrical shock

Step 4

- Use a Phillips #00 screwdriver to remove the 8 screws that secure the battery.

Step 5 — Remove the battery

- Once all the screws have been removed the battery is now safe to extract

Step 6 — Touch Pad

- Unplug the trackpad cable.

Step 7

- Insert wisdom here.

Step 8

- Use a Phillips screwdriver to remove the 4 trackpad screws.

Step 9

- Remove the trackpad.

To reassemble your device, follow these instructions in reverse order.
