# Logitech UE MegaBoom Battery Replacement

A dead battery can be an inexpensive fix for...

Written By: Oscar Ambriz

# INTRODUCTION

A dead battery can be an inexpensive fix for devices that will not charge, or have a short battery life. This guide will show you how this part can be replaced.

🔧 **TOOLS:**

Jimmy (1)
iFixit Opening Tool (1)
Tweezers (1)

⚙ **PARTS:**

Logitech UE MegaBoom Battery (1)
## Step 1 — Outer Mesh

- Locate the ends of the speaker.

- Put a plastic opening tool in-between the rubber end and the mesh.

- Apply a upward force in order to pry open the end.

- Apply this procedure to the other side as well.

ⓘ Will take force.

⚠ Using metal tools may permanently mar your device.

## Step 2

- Take the Jimmy and pry up the rubber strip that has the volume buttons on it.

ⓘ You will hear clicks as it pries up, don't worry.

- Remove all the rubber you pried off.
## Step 3

- Use [tweezers](#) to lift end of plastic retainer on edge of mesh out of its channel.

- Work the plastic retainer out of the channel all the way around the speaker.

⚠ Be gentle, it is easy to damage the fabric.

- Repeat for other side.

## Step 4 — Battery

- Pull on white strip to remove battery.

## Step 5

- Remove inner plastic gasket on circuit board.

- Remove 2nd plastic gasket around outer circuit board edge, under rubber gasket.

## Step 6

- Gently pry circuit board up out of recess.

---

To reassemble your device, follow these instructions in reverse order.
